YEARS OF
EXCELLENCE

A high-angle photograph of a chessboard. In the center-left, a white king piece stands prominently. To its right and in the foreground, several pieces of jewelry are displayed: a wide, ornate diamond bracelet with a large central pear-cut diamond, and three diamond rings, each featuring a large pear-cut diamond. The chessboard's alternating light and dark squares create a strong geometric pattern. The lighting is dramatic, highlighting the facets of the diamonds and the texture of the chess pieces.

The International Institute of Gemology (IIG) has established itself as a renowned institution in the fields of Gemology, Diamond, Jewellery Designing and Merchandising education.
